About MedPharmPlast Europe

MedPharmPlast Europe (MPPE) is a sector group of EuPC (European Plastics Converters) created in 2014 by and for companies involved in the **entire supply chain of plastic medical devices and pharmaceutical packaging** in Europe.

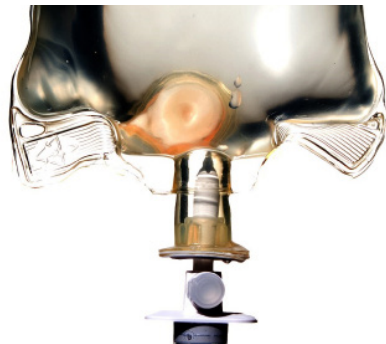

MPPE **represents the interest** of these industry groups and **interacts with the European Institutions** to support the delivery of final regulations that are workable for the industry whilst protecting patient safety.

Through open, clear **two-way dialogue** MPPE assists its members by taking their views into account and keeping them informed about the latest developments in European regulations and their potential impact on the medical device and pharmaceutical packaging plastics value chain.

MPPE Mission

- **Work & consult with the European legislators** to help maintain a dynamic and innovative industry
- Work to be **the platform** where companies involved in plastics for medical devices and pharmaceutical packaging can meet, discuss and share information at a European level
- **Actively update** our members and distribute key information among them
- Coordinate **industry actions at European level** utilising the knowledge and experience of the MPPE members
- Consider the patient outcome and experience as our priority in all our activities

MPPE Activities

- **MPPE Regulatory Task Force:** technical, regulatory & monitoring activities for the association members
 - **coordinates the outreach with the EDQM**, the body responsible for the maintenance of the European Pharmacopeia
 - prepares **position papers on key topics** (e.g. upstream supplier audits and hazardous substances)
 - provides a forum for members that wish to contribute to the positions and activities of MPPE
- **Advocate** in the European Union
- **Coordinate industry actions at European level** utilising the knowledge and experience of the MedPharmPlast Europe members
- **Monitor the status of substances** commonly used in medical devices and pharmaceutical packaging within REACH, CLP, Biocides and RoHS
- Participate in the **Medical Devices Coordination Group** to influence regulations where it matters most
- Liaise with other associations and stakeholders important for our industry
- Provide **regular information & updates** on important topics concerning the industry to our members
- Organise **two MPPE events** per year:
 - MPPE General Assembly - for members & invited guests
 - **MedPharmPlast Europe Conference** - open to external companies
- Cooperate with & exchange within EuPC
